

# Patch Panels

## Plug 'n' Play

### Description

### KRONE No.

#### 12-Port Hinged Patch Panel

The 12-Port Hinged Patch Panel is a modular patch panel that offers cable access from the top, bottom, back and sides. It is designed for horizontal or vertical mounting. Convenient wire management rings on the front organize cords.

Includes Patch Panel, with hinged cover, captive rivet for closing, two KRONE Ring Wire Managers, rubber grommets and mounting screws. Accepts all KRONE modular jacks and connectors. Panel footprint is the same as the R89D Bracket. Provided in ivory with white silk screening.

- Dimensions 10" H x 2 1/2" W x 2 1/2" D (254mmH x 63.5mmW x 63.5mmD)

6653 2 704-13  
Pack Qty: 1

12-Port Hinged

#### 16-Port Hinged Patch Panel

6653 2 704-17  
Pack Qty: 1

#### 12-Port Mini Patch Panel

All the convenience of KRONE's other modular patch panels, plus the small footprint of the R89D Bracket.

Part of KRONE's high performance line of modular products, these blank mini patch panels will accept all the modular jacks and connectors available for KRONE's station outlets.

Includes one R89D Bracket.

- Dimensions 10" H x 2 3/4" W x 1 7/8" D (254mmH x 69.85mmW x 47.63mmD)

6653 2 705-12
