KRONE Insertion Tool

KRONE insertion tool

Inhibitor Lock
Prevents the automatic trimming of excess wire to enable daisy-chaining

Blade
Used to remove termination blocks from back mount frames

Hook
Used to grab and remove wires for changes

Features

- Insertion sensor ensures the conductor is fully inserted into the block contacts before allowing any excess wire to be cut off
- An inhibitor lock prevents the scissors from operating—particularly useful in applications in which conductors are daisy-chained through several contacts
- Universal scissors cut a variety of cable types, including 20 AWG through 26 AWG and Type 1 foam-insulated conductors
- Specially designed wire hook removes terminated conductors
- Blade helps to remove blocks easily from back mount frames
